

# National Sea Perch Initiative: A Sustainable Model

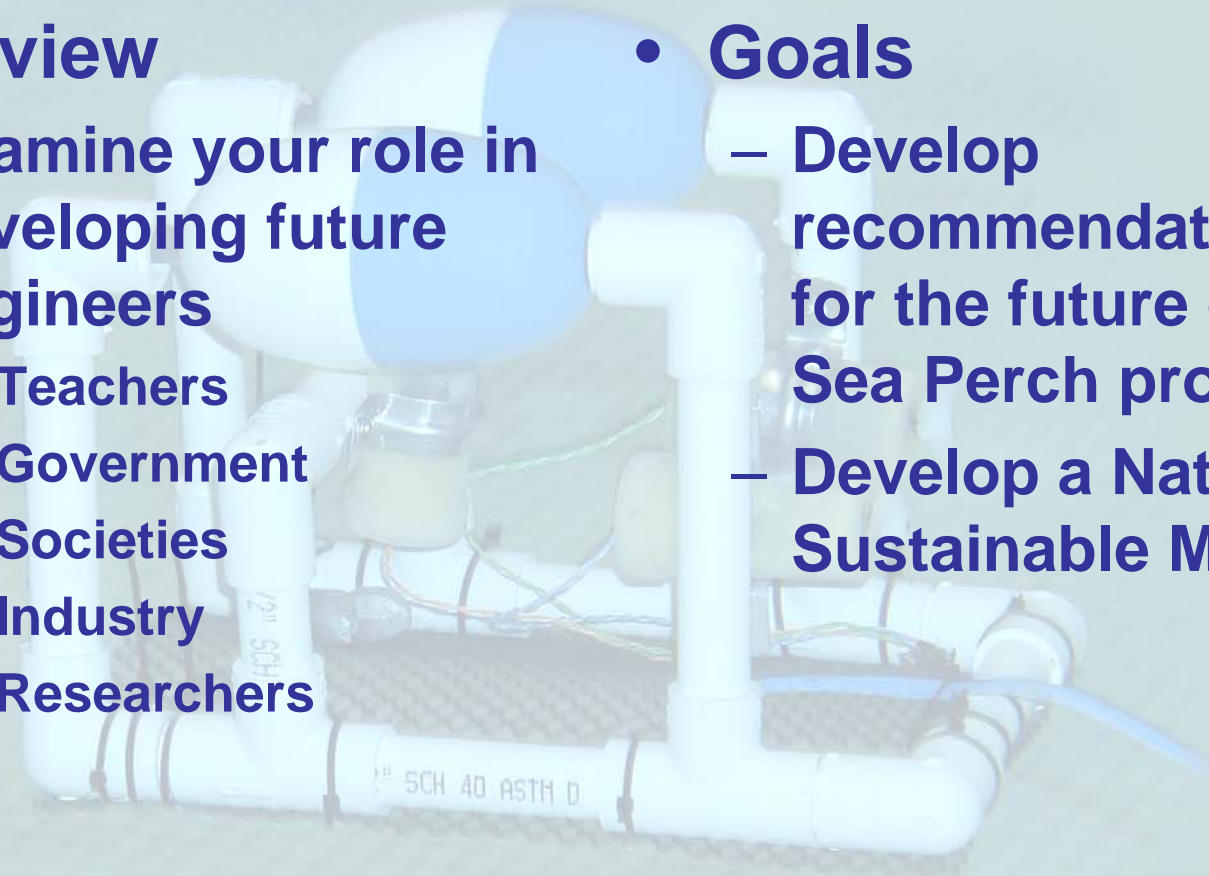

MIT Sea Grant College Program

# Developing a Model

- **Overview**
  - Examine your role in developing future engineers
    - Teachers
    - Government
    - Societies
    - Industry
    - Researchers
- **Goals**
  - Develop recommendations for the future of the Sea Perch program
  - Develop a National Sustainable Model

# Break Out Questions

1. Summary from panel discussion: What needs do teachers have to successfully implement Sea Perch in the classroom?
2. We are trying to get students interested in math, science and engineering – with a focus on Naval Architecture.
3. Can the Sea Perch website be a driving National force to the program?
4. What would a National Training Program for Sea Perch look like?
5. Should we continue to pursue the National Sea Grant College Program/Educators network to spread the program nationally?
6. What recommendations would you offer MITSG in moving the Sea Perch Program nationally?
